Subject: Request for Applications (RFA) Number M/OAA/DCHA/AFP-06-126  
Entitled, Ocean Freight Reimbursement Program

The United States Agency for International Development (USAID) as represented by the Bureau for Democracy, Conflict and Humanitarian Assistance in the Office of Private and Voluntary Cooperation-American Schools and Hospitals Abroad (DCHA/PVC-ASHA) is seeking applications for an Assistance Agreement to support the program entitled Ocean Freight Reimbursement. The authority for the RFA is found in the Foreign Assistance Act of 1961, as amended.

Pursuant to 22 CFR 226.81, it is USAID policy not to award profit under assistance instruments. However, all reasonable, allocable, and allowable expenses, both direct and indirect, which are related to the grant program and are in accordance with applicable cost standards (22 CFR 226, OMB Circular A-122 for non-profit organization, OMB Circular A-21 for universities, and the Federal Acquisition Regulation (FAR) Part 31 for-profit organizations), may be paid under the grant.

The Ocean Freight Reimbursement Program is competed every two years. This application will cover both FY2006 and FY2007 funding periods. Subject to the availability of funds, USAID intends to provide approximately fifty grants with an estimated funding range between \$2,500 and \$150,000 for year one. Successful 2006/2007 applicants with current Ocean Freight grants could be awarded reduced funding if they have significant pipelines. Pipelines may also affect second year funding. USAID reserves the right to fund any or none of the applications submitted. The OFR Program does not review requests for the New Independent States (NIS) in this two-year cycle. PVOs interested in shipping to the NIS should contact Rang Hee Kim at Counterpart International (202) 296-9676.

Adherence to the guidelines will form the basis of the selection review process managed by PVC-ASHA. The OFR Request for Application will be discussed in detail at the upcoming OFR Bidders' Conference on November 10, 2005 at Ronald Reagan Building and International Trade Center. For conference information please see [www.usaid.gov](http://www.usaid.gov) USAID Keyword: ofr.

## **SECTION I - BACKGROUND**

### **A. OVERVIEW OF PVC-ASHA**

The Office of Private Voluntary Cooperation - American Schools and Hospitals Abroad (PVC-ASHA) is responsible for registering U.S. Private Voluntary Organizations (PVOs) for the U.S. Agency for International Development (USAID) and is a central point of contact in the Agency for information on PVO capabilities and programs. Historically, PVC-ASHA has supported PVO/NGO strengthening activities and has encouraged its PVO partners to build relationships with the local NGOs and the international business community. In 2003, PVC-ASHA adopted a new strategy, shifting its focus from strengthening PVOs to building the capacity of local Non-Government Organizations (NGOs). This new focus corresponds with the Agency's expanded emphasis on civil society strengthening in USAID presence countries, as well as in non-presence fragile states and those emerging from conflict.

PVC-ASHA administers and funds a number of competitive grant programs that address critical development needs. These programs include the Local NGO Sector Strengthening Program, Cooperative Development Program, Capable Partners Program, Ocean Freight Reimbursement Program, and American Schools and Hospitals Abroad Program. Through these cross-cutting programs aimed at organizational strengthening, PVC-ASHA works to ensure that PVOs, Cooperative Development Organizations (CDOs) and NGOs are strong, effective, and capable of delivering critical services. By building the institutional capacity of these organizations, PVC-ASHA increases their ability to deliver development services, mobilize people at the grassroots level, and form partnerships and networks. These PVOs and NGOs then pass on the knowledge and best practices accumulated during their years of partnership with PVC-ASHA, thus helping contribute to the programs' sustainability well after USAID support is complete.

For more information on PVC-ASHA's program directives and how their grant programs support the office's new strategy and thus the larger goals of the Agency, applicants are encouraged to review the Strategic Plan. A copy of the Strategic Plan can be downloaded from the PVC-ASHA website at [www.usaid.gov](http://www.usaid.gov) keyword: PVC.

### **B. OCEAN FREIGHT REIMBURSEMENT PROGRAM SUMMARY**

The OFR Program objective is to pay transportation charges on shipments by private voluntary organizations registered with USAID to further the efficient use of U.S. voluntary contributions for development, relief, and reconstruction. Recipients ship a variety of goods overseas for use in privately funded development and humanitarian assistance programs. Additional background information on the OFR Program can be found at [www.usaid.gov](http://www.usaid.gov) USAID Keyword: ofr.

## C. REQUIREMENTS AND RESTRICTIONS

All applications will be reviewed for eligibility against the requirements and restrictions outlined below and for conformity and consistency with the specifications stated in these guidelines.

### 1. Applicant Eligibility Requirements

- ☐ This competition is open to U.S. PVOs registered with USAID at the time of application submission.

### 2. Program Requirements

Applicants must meet the following program criteria:

- ☐ Programs are in an eligible country or countries (Annex A);
- ☐ Programs must involve partnership(s) with local government, a nongovernmental organization (including affiliates), community partner, or other in-country organization (page 21);
- ☐ Applicants must demonstrate that they have staff or consignees in-country to ensure proper pick-up and distribution of commodities by submitting a Consignment Affidavit (Annex B) for each consignee; and
- ☐ Applicants must provide a letter from each destination country government stating that their shipments may be received duty-free. ***All letters not written in English must be accompanied by English translations, and all duty-free waivers must be current and valid for the timeframe in which the PVO will be shipping to each particular country.*** If the applicant cannot secure a letter from the destination country government, the PVO may write a letter stating that its organization will take full responsibility for all duties, taxes, tolls, etc. incurred on each shipment.

### 3. Program Restrictions

The OFR program cannot be used under the following circumstances:

- ☐ In countries where the PVO does not have staff or consignees to ensure proper pick-up and distribution of commodities;
- ☐ In countries that are not listed on the approved Procurement Authorization;
- ☐ Where the PVO or local partner charges the consumer a fee for the supplies or commodities proposed to be shipped under the OFR program (unless prior written approval is given). Exceptions may be considered in special cases, following a request to PVC-ASHA and based on PVC-ASHA approval, such as the sale to recipients at nominal cost or as payment for work performed to promote projects of self-help and economic development. However, in no case shall supplies be withheld from needy persons because of their inability to pay or to work;
- ☐ To support commodities funded by the U.S. Government or supported by other USAID-funded programs; or
- ☐ To ship religious or proselytizing materials or P.L. 480 food commodities.

### 4. Reimbursement Restrictions

Recipients are required to absorb all ancillary costs associated with each shipment, such as insurance, warehousing, courier fees, and inland

transportation in the United States and recipient countries that are not landlocked and do not meet the exceptions outlined below. In these ways, this program leverages many times the value of commodities shipped to USAID dollars spent. **Reimbursement requests for U.S. inland transportation, other ancillary costs, or any costs other than those outlined below will not be considered. Please do not include these in your application.** These regulations are based on statutes outlined in 22 CFR Parts 202 and 226, which are available on the USAID website at <http://www.usaid.gov/policy/ads/cfr.html>.

The following ocean freight costs are eligible for reimbursement under the OFR program:

- ❑ The ocean freight cost of transporting donated or purchased supplies from a U.S. port to a foreign port of the recipient country. Those costs eligible for reimbursement include ocean freight, Terminal Handling Charges (THC), Bunker Surcharge, Wharfage, and Security Surcharge. All other costs associated with the shipment are considered ancillary costs and are not eligible for reimbursement.
- ❑ Limited inland transportation costs in a foreign country under one or more of the following circumstances: 1) if the destination country is landlocked; 2) where ports in the destination country can not be used effectively because of natural or other disturbances; 3) where carriers to a specified country are unavailable, or 4) where a substantial savings in cost or time can be affected by the utilization of points of entry other than ports. Under these circumstances, the limited inland transportation costs that may be reimbursed under the OFR Program include the actual cost of transportation of the supplies from pick-up point in the initial port of discharge to designated point of entry in the recipient country.
- ❑ Where inland costs are eligible for reimbursement, expenses incurred in transferring supplies from ocean carrier to inland carrier are also eligible.
- ❑ Ocean Freight transportation costs for the shipment of United States excess property from the port of the country in which the excess property originates to the destination country. In the case of excess property, the excess property can originate in a foreign country; however all other restrictions regarding reimbursement apply.

## **SECTION II - GRANT APPLICATION INSTRUCTIONS**

### **A. PREPARATION GUIDELINES**

#### *1. General Guidelines*

All applications received by the deadline will be reviewed for responsiveness to the specifications outlined in these guidelines and the application format. Section III addresses the review process and selection criteria for

the applications. Applications that are submitted late or are incomplete run the risk of not being considered in the review process.

The application should be prepared according to the guidelines set forth below. **Please see the application checklist on page 13 for the complete list of required documents.** Applications must be submitted no later than the date and time indicated on the cover page of this RFA, to the location indicated on page 2 of the cover letter accompanying this RFA.

Applications should be specific, complete and presented concisely. They should demonstrate the PVO's capabilities and expertise in the technical area in which the PVO is working (ex. agriculture, health, education, etc.). The applications should take into account the selection criteria found in Section III. Applicants are expected to review, understand, and comply with all aspects of this RFA.

Applications and modifications thereof shall be submitted in sealed envelopes or packages (1) addressed to the office specified in the cover letter of this RFA, and (2) showing the time specified for receipt, the RFA number, and the name and address of the applicant. Applicants should retain for their records one copy of the application and all enclosures which accompany their application.

Neither faxed applications nor applications submitted via e-mail will be considered; however, applications may be modified by written or faxed notice, if that notice is received by the date and time specified for receipt of applications.

#### **a. Private Information**

Applicants who include data that they do not want disclosed to the public for any purpose or used by the U.S. Government except for evaluation purposes, should:

(1) Mark the title page with the following legend:

"This application includes data that shall not be disclosed outside the U.S. Government and shall not be duplicated, used, or disclosed - in whole or in part - for any purpose other than to evaluate this application. If, however, a grant is awarded to this applicant as a result of - or in connection with - the submission of this data, the U.S. Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting grant. The data subject to this restriction are contained on pages (List Page #'s); and

(2) Mark each page of data it wishes to restrict with the following legend:

"Use or disclosure of data contained on this page is subject to the restriction on the title page of this application."

#### **b. Questions**

Any prospective applicant desiring an explanation or interpretation of this RFA must e-mail their request to [dalzouma@usaid.gov](mailto:dalzouma@usaid.gov) within five weeks of the

posting of this RFA to allow a reply to reach all prospective applicants before the submission of their applications. All responses will be posted on the OFR website at [www.usaid.gov](http://www.usaid.gov) USAID Keyword: OFR. Oral explanations or instructions given before award of a Grant will not be binding. Any information given to a prospective applicant concerning this RFA will be furnished promptly to all other prospective applicants as an amendment of this RFA, if that information is necessary in submitting applications or if the lack of it would be prejudicial to any other prospective applicants.

## *2. Formatting Guidelines*

To facilitate the competitive review of the applications, USAID will consider only applications which are typed legibly on standard letter-size 8 1/2" X 11" paper and conform to the format prescribed below:

- ❑ The body of the application (see Application Content Checklist on page 13) is not to exceed 30 numbered pages. Due to the likelihood that the number of duty-free and consignment affidavit attachments will vary depending upon the number of countries for which a PVO applies, there is no page limit for the attachments.
- ❑ The text of the application should be single-spaced and cast in Times New Roman font, 12-point size. However, budgets and tables may be in a slightly smaller font (10 point). No typeface or characters should be smaller than 10 characters per inch.
- ❑ One original; one electronic copy (diskette or CD) of the table of contents, budget and body of the application; and five hardcopies of the entire application, including all attachments, must be submitted. The original should be printed on plain paper, single-sided, and unbound, so that it is "photocopy ready." The five additional copies should be on plain paper, single-sided, and bound.
- ❑ All attachments and supplemental documents (such as Duty-Free Certifications and Letters) must be in English. Foreign documents accompanied by an English translation are acceptable.
- ❑ All requests for Ocean Freight Reimbursement funding for FY 2006 and 2007 must be made by completing a single application packet. Separate applications are not required for each fiscal year.
- ❑ The applicant shall sign the application and print or type his/her name on the Cover Page.
- ❑ Erasures or other changes must be initialed by the person signing the application.

Based on your experience over the past two years provide at least 3-5 examples each fiscal year of the types of shipments for which you are currently applying for funding. These shipments do not have to be shipments that were reimbursed by OFR. \*\*Includes both ancillary costs (see list of definitions on page 6) which are non-reimbursable and ocean freight costs which are eligible for reimbursement (see Section I.C.4 "Reimbursement Restrictions" on pages 9-10).

4. *Program Description (15 pages maximum)*

In this section it is recommended that you provide a detailed response regarding up to three programs. If you have more than three programs, you may wish to provide a detailed response regarding at least one program in each region which exemplifies other programs in those regions. Provide a minimum of three examples. Note: The "example" program(s) should be those for which your organization is requesting funding.

- a) Situational Analysis and Rationale for OFR support: Describe the current conditions in each country or region where your organization is proposing to work; discuss factors likely to affect proposed program outcomes and discuss the justification for providing support to your organization. *Be sure to cite the resources for your data and include the following:*
- ❑ Identify the country (ies) in which you are proposing to work. Discuss prior experience working with the host country government(s) in the countries where this program will operate.
  - ❑ Describe the intended beneficiaries, including their estimated number by gender and age and their needs. Discuss how you estimated the number of beneficiaries and the techniques used to determine their needs (e.g. surveys, census data, and needs assessment).
  - ❑ Discuss why your organization has a comparative advantage in carrying out this work. Cite prior relevant experience using specific examples and data. Identify any opportunities for synergy with other programs, donors, or sectors, and discuss how the programs might work together and support one another.
- b) Program Objectives: Describe in greater detail the major objectives of the program(s) for which you are seeking OFR funds.
- ❑ Identify and describe in detail the objective(s) of the program(s) for which you are seeking OFR funds. Provide the program duration and timeframe.
  - ❑ Discuss how your shipments under the OFR program would support or enhance the humanitarian relief and/or long-term development objectives of the program or that of your partner(s) in the countries you have proposed.
- c) Commodities: Describe in greater detail the commodities that will be shipped to each country program. Link this discussion to the objectives of these programs.
- ❑ Discuss the type of commodities that will be shipped to each country (ies) and explain how the goods will respond to the specific needs of the beneficiaries as outlined in your situational analysis. State in what way(s) shipping these commodities will improve program operations and/or increase access to, or the quality of, the program(s).
  - ❑ How does your organization address the issue of assuring that commodities will "do no harm"? For example, when large quantities of clothing are shipped during the first phase of a

disaster, not only can these shipments potentially clog ports, delaying the entrance of much needed emergency items, they can also harm the local economy by taking away business from the local tailors and small business owners who make a living by selling clothing. Also, currently in Haiti, large amounts of donated clothing are being sold on the black-market. How could the commodities your organization is proposing to send potentially harm, rather than help, the recipient country, and what steps does your organization take to ensure the commodities will not hurt the local people and/or economy?

Note: The point behind this question is for the applying organization to demonstrate to the review panel that they have considered both the positive and negative ramifications of what they will be shipping.

- ☐ Complete the following tables on the commodities that will be shipped:

**Table 1 Provide a summary table under the OFR Program in FY 2006 and FY 2007 funding periods that lists the countries, percent of OFR commodities being shipped, program focus, types of commodities, and if the commodities are either donated or purchased.**

EXAMPLE Table 1

d) Partnership Formation: Identify your proposed program partners and provide a rationale for the selection of these partners.

❑ Provide a description of the partner's (s') experience in the program and in the delivery of commodities. All partners must be listed and briefly discussed. However, it is recommended that if you have more than three partners you may wish to provide a *detailed* response regarding at least one partner in each region which exemplifies other partners in those regions, with a minimum of three examples total.

- List your partners for this program and indicate whether each partner is an independent NGO or an affiliate of the applicant;
- Discuss your organization's relationship with in-country implementation partners and state whether the partners are new or continuing. Cite the success you have had with your approach;
- Discuss your partner's (s') involvement in developing this application;
- Describe any training your partners have had on the equipment or supplies you send and maintain; and
- Note whether you have a memorandum of understanding or other agreement with your host country partners.

e) Standards: We expect all OFR grantees to adhere to "Best Practices". OFR grantees are encouraged to abide by the PVO Standards set forth on InterAction's website at [www.interaction.org/pvostandards/](http://www.interaction.org/pvostandards/). For example, it is recommended in InterAction's PVO standards that NGOs involved in the provision of food aid are guided by "Representative Food Aid Standards" promulgated by Food Aid Management. Similarly, those involved with Gifts-In-Kind are guided by the "Interagency Gifts-In-Kind Standards Project" of the Association of Evangelical Relief and Development Organizations (AERDO).

❑ Based on the activities in this proposal how does your organization ensure that it is abiding by the PVO accepted "best practices" specifically as this pertains to commodity shipping?

#### 5. *Program Management and Structure (10 pages maximum excluding tables)*

This section provides an overview of the management of the proposed program. Please be sure to highlight those areas of program management, like receiving and distribution that were not discussed under the Program Description section. For sections b and c it is recommended that, if you have up to three programs, you give a detailed response regarding each program. If you have more than three programs, you may wish to provide a detailed response regarding at least one program in each region which exemplifies other programs in those regions, with a minimum of three examples. Note: The "example" program(s) should be one(s) for which your organization is requesting funding.

a) Organizational Structure:

❑ Discuss how the PVO U.S. headquarters will ensure effective support to the field for this program. Include the number of

personnel that manage the OFR program both in the field and at the headquarters.

- ❑ Provide an organizational chart of the applicant PVO that clearly delineates the key personnel responsible for backstopping the program in the U.S. headquarters office and in the field.

b) Receiving and Distribution System:

- ❑ Identify if your organization has a physical presence in each country where the proposed program will operate. If the PVO does not have a physical presence in the country, then identify who is responsible for receiving and distributing the commodities and describe criteria for consignee selection.
- ❑ Describe the entire process of receiving and distributing the OFR support commodities, i.e., clearing customs, warehousing, transportation and distribution of goods to final destination.
- ❑ Describe in detail how your organization monitors the OFR shipment from shipping dock to the final distribution. Include a discussion of the following elements: reporting requirements, physical inspection, inventory control, distribution schedule, on-site inspection and beneficiaries' response.
- ❑ Cite any experiences concerning lost and/or stolen goods (i.e., percent of loss to value of total goods shipped) and the steps taken to safeguard the distribution process.

- c) Contingency and Security Planning: Natural and man-made disasters affect a substantial number of development programs at some time during the course of implementation. Briefly outline plans to prevent and mitigate the effects of security problems or other emergencies on your organization's staff and property to ensure the security and safety of program personnel.

6. *Pipeline*

Prior year OFR grantees with a significant residual pipeline will likely receive less funding if approved this budget cycle.

PVOs with existing OFR procurement authorizations must provide the following information:

- ❑ Outline the amount of OFR funds currently available for use from OFR awards in years prior to and including if applicable, FY 2005.

<u>Procurement Authorization No.</u>	<u>Amount of Award</u>	<u>Amount Spent</u>	<u>Amount Available</u>

- ❑ Describe the schedule/plan for expending any balance of OFR funds by the end of the funding period. The end of your funding period is located on your Procurement Authorization under "Delivery Period." For most of you this will be September 1<sup>st</sup> or 2<sup>nd</sup> of 2006.

#### **D. NEGOTIATION AND AWARD**

The Government may award one or more Grants resulting from this RFA to the responsible applicant(s) whose application(s) conform to this RFA. The Government may (a) reject any or all applications, (b) accept other than the lowest cost application, and (c) waive informalities and minor irregularities in applications received.

The Government may award one or more Grant(s) on the basis of the initial applications received, without discussions. Therefore, each application should contain the applicant's best terms from a cost and technical standpoint. Neither financial data submitted with an application nor representations concerning facilities or financing, will form a part of the resulting grant.

The Recipient is reminded that U.S. Executive Orders and U.S. law prohibits transactions with, and the provision of resources and support to, individuals and organizations associated with terrorism. It is the legal responsibility of the recipient to ensure compliance with these Executive Orders and laws. This provision must be included in all subawards issued under this agreement.

On October 20, 2004, USAID issued its final rule (the "Rule") on participation by religious organizations in USAID programs (69 FR 61716). The Rule amends several USAID regulations in furtherance of Executive Order 13279 (67 FR 77141), which directs executive agencies to ensure equal protection of laws for faith-based and community organizations ("FBCOs") that apply for federal funds. The Rule generally ensures that FBCOs are able to compete fairly for USAID funding, and that USAID programming decisions are based on the program eligibility criteria, without regard to the religious character or affiliation of applicants. Moreover, although faith-based organizations (FBOs) may not use direct USAID funds for inherently religious activities, FBOs may continue to engage in religious activities as long as they are privately-funded, separate in either time or location from USAID activities, and voluntary for beneficiaries of the USAID-funded activity.

Faith Based Organizations are eligible to participate in USAID programs on the same basis as any other organization without regard to their religious character or affiliation and may not be excluded from competition for USAID funding. As stated on page 8, all applicants must be registered as a PVO by the application deadline. USAID may not discriminate for or against a program applicant on the basis of religious character or affiliation. For further details regarding this rule, please see [http://www.usaid.gov/our\\_work/global\\_health/home/Funding/execsummary.html](http://www.usaid.gov/our_work/global_health/home/Funding/execsummary.html).

##### **1. Authority to Obligate the Government**

The USAID agreement officer is the only individual who may legally commit the government to the expenditure of public funds. No costs chargeable to the proposed procurement authorization may be incurred before receipt of a signed and executed procurement authorization.

##### **2. Program Funding**

The number of PVC-ASHA applicants to the OFR Program has steadily risen, while funds available for the Program remain limited. In order to maximize the number of PVO recipients each year, awards will not exceed \$150,000 per organization.

### 3. Requirements for Funded Programs

#### **a. USAID Responsibilities**

Cooperative agreements are conditional grants that have substantial involvement by USAID in the implementation of the program. The substantial involvement for OFR would include any changes to the Procurement Authorization, review of quarterly reports, tracking of expenditures, and the review, authorizing and processing of all reimbursement requests. DCHA/PVC-ASHA will be substantially involved during the period of the cooperative agreement.

The agreement officer, or the cognizant technical officer, or the project officer will provide approval of changes in the program description. Grant recipients must request, in writing, approval to make changes in specific activities, program location, commodity categories, designated consignees, and procurement authorization extensions.

Any deviation from the terms of the procurement authorization requires written authorization by the USAID agreement officer (i.e. program location, commodity categories and procurement authorization extensions).

#### **b. PVO Recipient Responsibilities**

The selected PVO recipients will be responsible for implementing the program in accordance with USAID's terms and conditions and all other applicable USAID regulations. **As all commodities in the OFR program are privately donated and not purchased by USAID, the USAID Branding policy does not apply to OFR recipients.** However, PVOs will be responsible for the following activities and documentation during the life of the program for which the PVO receives a grant:

- ☐ Making all transportation arrangements;
- ☐ Shipping all commodities on vessels registered under the flag of any free world country, flag vessels of developing countries or any free flag vessels. Free world countries are identified in USAID Authorized Geographic Code 935 as listed in the Geographic Code Book (part of the AID Code Book, Handbook 18) which can be obtained at [www.usaid.gov/policy/ads/200/historical\\_geocodes1992.pdf](http://www.usaid.gov/policy/ads/200/historical_geocodes1992.pdf);
- ☐ Shipping only the approved commodities to the eligible countries authorized on the procurement authorization;
- ☐ Obtaining approval from DCHA/PVC-ASHA to extend the funding period of a grant which has an unexpended balance at least 60 days prior to the expiration of the grant;
- ☐ Paying for all ancillary costs involved in making shipments under the Ocean Freight programs; i.e., insurance, domestic loading of the container, warehousing, etc.;
- ☐ Obtaining prior approval to add additional eligible countries to the original Procurement Authorization; and
- ☐ Submitting a copy of USAID Form 1550-6, "Voluntary Agency Quarterly Report of Shipping Activity" on a quarterly basis.

The awards made pursuant to this RFA will be subject to the requirements of Title 22 of the *Code of Federal Regulations*, Part 226, "Administration of Assistance Awards to U.S. Non-Governmental Organizations," Part 202, "Overseas Support of Supplies by Voluntary Non-Profit Relief Agencies," and the applicable Standard Provisions for U.S. Non-Governmental Grantees. The Standard Provisions and 22 CFR Parts 226 and 202 are available on the USAID website at <http://www.usaid.gov/policy/ads/cfr.html>

### ***C. Applications for Reimbursement***

OFR Grantee applications for reimbursement must consist of the following:

- ❑ Commercial Bill of Lading noting inland and port-to-port ocean freight costs, Terminal Handling Charges, Bunker Surcharges, Wharfage, and Security Surcharges.
- ❑ USAID Form 1550-1, "Voluntary Agency and Carrier Certificate" signed by the Carrier and, in cases where foreign inland transport costs are eligible for reimbursement, signed by the PVO
- ❑ Completed SF 1034, "Public Voucher for Purchases and Services Other Than Personal"
- ❑ The SF 1034 must include the award number (referenced on the procurement authorization) and the banking information (American Banking Association number and bank account number).

Applications which are not complete and which do not contain a clear bill of lading breaking out inland and port-to-port costs may be cancelled and returned to the PVO. **Applications for reimbursement must be submitted within 60 days of the date of the related commercial bill of lading. In the case of inland transportation costs to landlocked countries, applications for reimbursement must be submitted within 180 days of the related commercial bill of lading.** For eligible reimbursement costs please see section I.C.4 "Reimbursement Restrictions" on pages 9-10.

**Applications for reimbursement should be submitted to:**

**Agency for International Development  
Ronald Reagan Building  
USAID/FM/CMP/DC, Room 7.07  
1300 Pennsylvania Ave., NW  
Washington D.C. 20523-7700**

## **SECTION III - REVIEW PROCESS AND SELECTION CRITERIA**

### **A. Review Process**

To facilitate the review of applications, applicants should organize the narrative sections of their applications in the same order as the selection criteria. All budgets and attachments should be included in the same order as outlined on page 13. Applications will be evaluated in accordance with the selection criteria set forth below. They will also be evaluated for general reasonableness, allowability, and allocability (see page 6 definitions). PVC-ASHA will review the application carefully for necessary and reasonable costs to support the proposed program.

All applications that meet the eligibility and program requirements and conform to instructions in the RFA will be reviewed and scored. The Review Panel will be composed of PVC-ASHA project officers, other staff members from USAID offices with related interests and appropriate expertise, and specialized technical reviewers from outside the Agency. Awards will be made based on the ranking of proposals according to the selection criteria identified below.
